AASHIKA GUPTA

ag3271@srmist.edu.in | 9711824810 | 2027
B.Tech, Computer Science and Engineering
Address : 2150 A Housing Board Colony Sec-55 Faridabad

Summary

Computer Science undergraduate with strong foundations in Data Structures, Machine Learning, and Data Analysis. Experienced in building end-to-end ML solutions, performing exploratory data analysis, and deploying models using Python-based frameworks. Proficient in modern development tools and continuously upskilling in Data Science, Backend Development, and Scalable Systems. Passionate about solving real-world problems using data-driven approaches.

Education

SRM IST-Ghazhiabad 2027
B.Tech · Computer Science and Engineering CGPA - 8.13/10

Rawal Convent School 2022
Class XII - CBSE · PCM · Friends Colony Ballabgarh Percentage - 68%

Rawal Convent School 2020
Class X - CBSE · PCM · Friends Colony Ballabgarh Percentage - 85.4%

Skills

Programming Languages: C , C++ , Python, JavaScript

Languages and Frameworks: HTML , CSS , REST APIs , Flask , React

Tools and Technologies: Git , GitHub , Visual Studio Code , Jupyter Notebook , Scikit-learn, Pandas , NumPy , MYSQL

Technical Skills: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Problem Solving, Debugging, Code Optimization

Areas of Interest: Machine Learning, Artificial Intelligence, Data Analysis, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering, Model Training & Evaluation

Domain Knowledge: Machine Learning, Artificial Intelligence, Data Analysis, DBMS, Operating Systems, Computer Networks, Backend Development

Projects

AI-Powered Crop Yield Prediction Platform Jun 2025 - Oct 2026
· Python, Pandas, NumPy, Scikit-learn, Git, VS Code Machine learning

- Built an end-to-end ML pipeline from data collection to prediction.
- Applied feature engineering and preprocessing to improve model performance.
- Increased prediction accuracy using optimized feature selection techniques.
- Generated data-driven insights for agricultural decision-making.

Breast Cancer Detection Nov 2026 - Present
· Python, Scikit-learn, Pandas, NumPy, VS Code Machine learning

- Preprocessed and cleaned real-world medical datasets for model training.
- Conducted EDA and feature selection to improve classification performance.
- Evaluated models using performance metrics like accuracy and precision.
- Developed a reliable classification model for early disease detection.

Planora – Smart Deadline & Mental Wellness Manager for Developers | Nov 2025 - Feb 2026
GitHub Repository
Team Project / Academic Project · React.js, Node.js, Express.js, MongoDB, JavaScript, Git, GitHub, Tailwind CSS Full Stack Web Development

- Collaborated in a 3-member team to develop a web-based platform for task management, smart scheduling, and mental wellness tracking.
- Performed testing, quality assurance, and requirement validation to improve reliability and user experience.
- Worked with Git/GitHub and participated in documentation, feature evaluation, and system testing.

Certifications

Artificial Intelligence
Udemy

Certification in Java
Hackerrank

Certification in Python
Hackerrank

Volunteering

Gift A Smile Foundation Aug 2025 - Sep 2025
Volunteer · Social Development
Volunteered with a social foundation to support underprivileged children through basic education initiatives. Taught foundational subjects to young students and participated in community outreach programs in slum areas, contributing to educational awareness and social development.

Extra Curricular Activities

Genesis Club - Core member

CSI Club- Core member

Aarzoo club- Social Media Lead

Languages

English [Professional Working Proficiency], Hindi [Native Proficiency]
